PRODUCT DESCRIPTION

Clear slabs of glass a half inch thick are pressed together between two discs finished in Natural Aged Brass. As the glass approaches the center, each slab of glass increases in dimension creating a gradation of light revealing the glasses' shape and character. Dedicated LED lighting emits from concealed polycarbonate tubes evenly distributing the light source in all directions. These LED tubes terminate at brass discs supported by Dark Brown leather straps that both suspend the pendants and conceal the electrical wiring stitched within them. Elevate your lighting to the next Stratum integrating bygone modern design elements with innovative technologies and expert craftsmanship.
