

**PRODUCT DESCRIPTION**

A modern take on the classic torchiere, the bright Satin Brass frames support thick textured glass cauldrons illuminated with dedicated LED modules. The 2-Light pendant and swing arm pin-up sconce feature rotatable shades directing the light either upward or cast directionally downward. The deep pattern in the glass sparks curiosity and fascination with its organic and abstract surface. It creates interest in the LED light source behind it while casting even light through the artistic vessels' design. Available in various configurations of pendants and sconces, the collection celebrates classic design concepts in an understated contemporary glamor that results in a composition suited to transitional and contemporary aesthetics. Make a statement with the oversized with the 3-light sconce nearly five foot in height or use the multiple functional pieces for reading our over an island.
